

Comfortex®

Pediatric Care

Crib Mattresses and Therapeutic Overlays

Made to fit, mattresses are supportive & durable with Phthalate-Free coverings. Pressure Redistribution overlays provide a unique 3-layered core for pressure point absorption. Overlays can be folded for easy storage & handling.

Safe, Secure Wagon Ride

When a wagon becomes a stretcher, this cushion completes the package. Linked, fiber-filled pillows are encased in a healthcare quality cover for body-hugging support and comfort.

Reflux Control Wedge mattress

Designed for use in the Giraffe® isolette, this cushion helps position newborns in a more HOB elevated position to reduce pepsin reflux. The mattresses' shape & contours fit the frame and facilitate access for cares & procedures.
