

Unique Mattresses

for Unique Beds

Rest-Q TCU fits
atop the Total Care bed

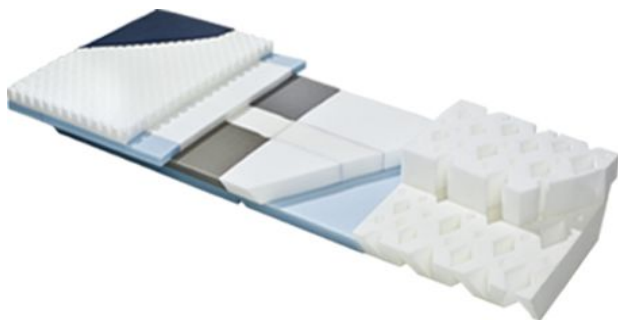

Rest-Q GS – *GSL or GSC* “Gentle Strength”

Each Rest-Q GS mattress is made to fit atop any Hospital Bed Manufacturer’s frame...and function better than the original

GS designs utilize a unique blend of materials that deliver the **Gentle** protection for the smallest of patients and the **Strength** to comfortably and safely support the heaviest of patients.

Rest-Q GSV

*Shaped to Fit....
...Engineered to Perform.*

- This (High Specification, High Resiliency) design brings unmatched comfort and pressure redistribution into a non-mechanical replacement mattress.
- The Rest-Q GSV unique shape and design fits and functions atop a V-Shaped bed platform...Perfectly.

GS Expandable

Extended Capacity for Expandable Bed Frames

- Expandable, both length and width, to fit various expandable bariatric bed frames.
- Tension relief Zones allow the mattress to move with the bed frame when adjusting positions.
- Expansion side cushions can increase the sleep surface from 36” to 48”. *Length extension cushions are available*
- Quick release side extension sleeves store tight against the main mattress when not in use.

**Safe, comfortable support for
patients weighing as much as
1000 lbs.**
